2016 - 2017 Kentucky Pride Fund Recycling Grant Application

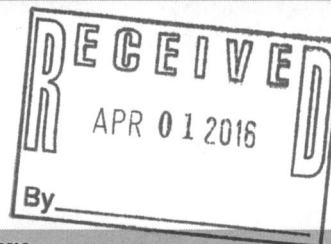

PART A

SECTION 1 - Applicant Information

Applicant Name: Shelby County 109 Taxing District Federal ID No.: 61-1068615
Address: 419 Washington Street Phone: 502-633-2699
City/State/Zip: Shelbyville, KY, 40065 Fax: 502-633-3580
E-mail: Rusty.newton@shelbycoky.com
Official Signatory:  Position: ☐ Judge/Executive ☐ School Administrator
Principal Applicant: ☐ Mayor ☒ 109 Board Chair ☐ Other _____
Address: 419 Washington Street Phone: 502-633-1220
City/State/Zip: Shelbyville, KY 40065 Fax: 502-633-7623
E-mail: Rusty.newton@shelbycoky.cc
Project Coordinator: Ricky Solomon Title: Director
Address: 419 Washington Street Phone: 502-633-2699
City/State/Zip: Shelbyville, KY 40065 Fax: 502-633-3580
E-mail: Rick.solomon@shelbycoky.cc
Applicant Status: ☐ Regional ☐ Joint (partnership between two political subdivisions within one county) ☐ County ☐ City
School District ☐ Solid Waste Management Area ☒ Solid Waste Management District
Urban County Government ☐ College/University ☐ Other _____

SECTION 2 - Project Summary

Provide a brief explanation of the proposed activity:

SECTION 3 - Authorized Signature

I hereby certify that the submission of this application has been duly authorized by the governing body of the entity, and that I am legally authorized to sign the application.

For regional and joint recycling projects, signature by the governing body of each participating entity shall be required.

Printed Name: Rusty Newton

Signature: 

Date 3/24/2016

DEP 7126 (September 2010)

PART B

SECTION 4 - Recycling Project Details

Answer the following questions on a separate sheet of paper. Use additional pages as necessary. Each response must be numbered to correspond to the question. Applications will be evaluated based upon responses.

A) Project Description

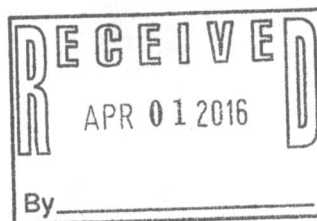

- 1) Describe the proposed project - is it a new program or the expansion of an existing program?
- 2) List the service area by physical boundaries - include cities, counties, etc. that will be active participants.
- 3) Why is the project needed?
- 4) Is the proposed project otherwise unavailable for the service area?
- 5) List materials to be collected and the expected increase in tons for the grant period.
- 6) How will materials be collected, processed and marketed?
- 7) Describe how and why the requested equipment is needed to implement the proposed project.
- 8) Provide a 12 month timeline for implementation of the proposed project.
- 9) Provide a list of potential buyers available for the materials to be collected. Include name and address of potential buyers.

B) Project Advertising and Education

- 1) What media type (specify radio, TV, newspaper, etc.) will you use to advertise your program? Describe the proposed advertising and education plan for the proposed project. Include the target audience and media to be used.
- 2) Identify any advertising/education partners and how/what each will contribute.

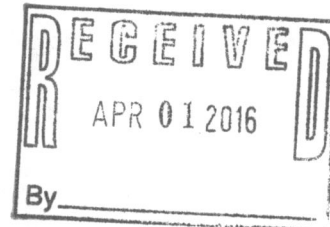

C) Project Sustainability

- 1) Describe how the proposed project will remain financially viable after grant funds have been expended.
- 2) Identify sources of revenue such as line item in budget, revenue generated from sale of collected materials, tax revenue, tipping fees, etc. Will the anticipated project generate revenue?
- 3) If the project is regional or joint, explain various partners' roles and contributions.
- 4) Describe the criteria and methods to be used for measuring success of the proposed project.

PART B		SECTION 5 – Recycling Project Grant Expenditures
<i>Complete the budget table below. The cost should be an estimate based on a vendor quote.</i>		
Equipment Requests - List in order of priority - #1 would be the first choice.		Estimate
1st	6- each Compartmental Roll Off Containers	\$ 46,200.00
2nd	1- Dump Trailer for OCC Pickups	\$ 14,387.00
3rd	1-Each Mini conveyor for Gravity Trailer	\$15,475.00
4th	10 each 4.5 cu. yd. Containers.	\$14,950.00
5th	5 each 9 cu. yd. Containers	\$10,525.00
6th	6 each Mesh Containers	\$ 9,900.00
7th	Electrostatic painting for 6 Mesh Containers	\$ 1,020.00
8th	1- Each Glass Pulverizer	\$ 18,748.00
9th	Electrical installation for Glass Pulverizer	\$3,380.00
10th	3-Each 40 Yd. container with cover (storing plastics to bale)	\$19,747.70
11th	2 each tractor trailers DOT inspected.	\$13,600.00
12th	Conveyor for Horizontal Baler with Electric installation included	\$22,719.30
13th	Wrap for ¾ Recycling Pickup Truck	\$1,375.00
14th	Forklift Clamp attachment	\$12,654.00
15th	Recycling Containers for schools and offices.	\$1,708.70
16th	Electrostatic Painting of four recycling trailers.	\$7,250.00
17th	Decals for Tractor Trailers	\$4,752.00

PROPOSAL

SUBMITTED TO: Shelby Co. Solid Waste ATTENTION: Rick Solomon ADDRESS: 170 Windhurst Way Shelbyville, KY 40065 PHONE #: (502) 633-2699 EMAIL #: rick.solomon@shelbycoky.com	Date: 03/16/2016 Job Name: Misting Fans and Glass Pulverizer Proposal#: 16-26
--	---

We hereby submit a proposal to furnish and install the following items listed below.

MISTING FANS: \$860.00

Furnish and install four duplex receptacles and switches for misting fans along the rear wall of the plant.

These will be fed from the existing 120 volt exhaust fan circuit on the same wall.

GLASS PULVERIZER: \$3,380.00

Furnish and install 3 - 20 amp, 2 pole, 208 volt breakers in the existing panel in the garage.

Furnish and install 3 - 20 amp, 208 volt twist lock receptacles inside near the overhead doors fed from the above breakers.

Furnish and install 3 - 20' long cord-sets on the motor controllers for the conveyor motor, crusher motor and the trommel motor.

Includes the EMT conduit, fittings, supports, hardware, wire, breakers, boxes, wiring devices and all misc. hardware for a complete installation.

Base Bid Amount:

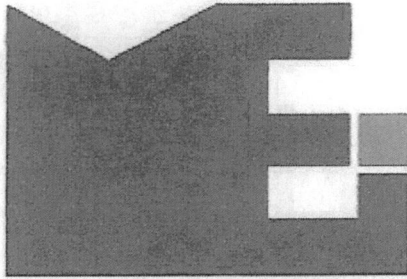

We propose to furnish material and labor per above specifications for the sum of:

Four Thousand Two Hundred Forty Dollars \$4,240.00

Payment to be made as follows:

Upon completion of work for payment within 30 days.

Terms and Conditions

1. Offer of Sale: Offers of sale are based on the terms and conditions found on the front page(s) of this proposal and those provided below. Unless otherwise provided on the face hereof, offers are available for acceptance for a period of 30 days from the date of this offer. An order by Customer shall constitute an acceptance of these terms and conditions of sale.

2. Purchase Orders:

(a) Purchase orders must be placed by Customer in any commercially reasonable manner that Customer and Yale Kentuckiana (YKI) determine is appropriate, including facsimile or electronic transmission. The purchase order will indicate the specific products; specifications related thereto, quantity, price, total purchase price, shipping instructions, requested delivery dates, bill to and ship to addresses, tax exempt certifications, if applicable, and any other special instructions. Any contingencies contained on such order are not binding upon YKI until acceptance. All purchase orders are subject to acceptance by YKI.

(b) Purchase orders shall be written to YKI and invoiced as a direct purchase, unless the Products will be subject to a third party lease agreement. If Products will be leased, Customer will present an order confirmation, in a format acceptable to YKI that includes the model number, purchase price, purchase order number, lease term, shipping instructions, monthly payment amount, and identification of lessor and address for acceptance and acknowledgment by YKI. Customer's lessor should issue a purchase order or notice of assignment to YKI within 10 days of the customer order confirmation. In the event Products are delivered by YKI without an order confirmation from Customer's lessor, Customer authorizes shipment of the Product to the Customer Location indicated in the Customer's purchase order, authorizes YKI to invoice Customer for the full purchase price and agrees to pay YKI the full purchase price upon delivery.

3. Prices: Prices quoted by YKI are subject to change without notice.

4. Payment: (a) Payment terms for all products under this Agreement shall be Net on Invoice and Delivery. Customer shall pay all applicable sales tax, installation and freight charges. If Customer fails to make any payment when due, there will be a service charge of one and one-half percent (1.5 percent) of the total amount due or the maximum legal rate allowed by law, whichever is less. YKI reserves a security interest in the products until payment in full has been collected and Customer agrees to notify YKI prior to relocation of any product in which YKI has a security interest. Customer shall execute any other document, including a financing statement or other document similar to the UCC-1, necessary to perfect YKI's security interest in the products. Customer authorizes YKI to file at Customer's expense any financing statement relating to the products without the Customer signature, except where prohibited by law.

5. Availability: Customer agrees that the products are subject to availability. YKI may cancel any order or any part of an order without cause at any time and without penalty, and YKI's sole obligation shall be to return any down payment paid by Customer. If Customer is delinquent in the payment of any invoice, or is otherwise in breach of this Agreement, YKI may at its discretion, withhold shipment (including partial shipments) of any order, or may at its option, require Customer to prepay for further shipments. YKI shall retain the right to suspend performance of any order or require payment in cash, security or other adequate assurance satisfactory to YKI when, in its opinion, the financial condition of Customer, or other grounds for insecurity warrant such action.

6. Delivery: All products purchased or leased by Customer pursuant to this Agreement will be shipped F.O.B. Factory. Freight and delivery will be added to the invoice based on current common carrier rates and subject to increase due to fuel surcharge. An anticipated shipping date will be established by YKI upon receipt of orders. The delivery date is the best estimate possible based on current and anticipated factory operations of when product will be shipped. YKI assumes no liability for loss, damage or consequential damage due to delays. Delivery shall occur and risk of loss shall pass to Customer upon delivery of the products to the FOB point.

7. Warranty: YKI warrants each new Cascade product purchased pursuant to this Agreement to be free of defective material and workmanship under proper use and service, in accordance with the terms of the warranty statement published by Cascade in effect at the time of acquisition of the product. Cascade replacement parts will be warranted as specifically provided in a written warranty statement provided with the products. YKI MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES AND ALL OTHER WARRANTIES ARE SPECIFICALLY EXCLUDED, INCLUDING ANY WARRANTY AS TO MERCHANTABILITY OR FITNESS FOR PARTICULAR OR SPECIAL PURPOSES. YKI SHALL UNDER NO CIRCUMSTANCES BE LIABLE FOR ANY SPECIAL, EXEMPLARY, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES REGARDLESS OF THE CAUSE. YKI's sole liability shall be discharged by replacing or repairing any part or parts which may prove defective under normal and proper use, within the effective period of the warranty, if shown to be defective by proper evidence submitted to YKI. In the event any parts and or structural components or appurtenances of a product are altered or modified by Customer without the express written consent of YKI any and all warranties shall immediately cease and terminate. Customer acknowledges and agrees that the limited remedies provided for in YKI's published warranty statements for the products shall constitute the entire warranty provided for the products and any breach thereof.

8. Product Returns: Products shall not be returned to YKI without its written consent. All costs of return shall be the responsibility of Customer.

9. Applicable Law: This Agreement shall be governed by and construed in accordance with the law of the State of Kentucky, without regard to its choice of law provisions. In the event of litigation or other proceedings by YKI to enforce or defend any term or provision of this Agreement, Customer agrees to pay all costs and expenses sustained by YKI, including but not limited to, reasonable attorney fees.

10. Force Majeure: Neither party shall be responsible for delays or failure in performance of this Agreement (other than failure to pay any amounts due) to the extent that such party was hindered in its performance by any act of God, civil commotion, labor dispute, unavailability or shortages of materials or any other occurrence beyond its reasonable control.

11. YKI Agents: Customer acknowledges that it has been advised that no agent, employee or representative of YKI has any authority to bind YKI to any affirmation, promise, representation, or warranty concerning any of the products and, unless such affirmation, promise, representation, or warranty is specifically set forth in this Agreement it does not form a basis of this bargain and shall not be enforceable against YKI.

12. Originals: Facsimile signatures shall be accepted as original signatures. Placement of any orders or the transaction of any business by electronic medium shall be subject to the terms of this Agreement.

13. Any increases in cost of freight quoted will be the responsibility of the customer and will be added to the invoice at time of delivery.

14. Cancellation: Customer acknowledges that there are costs associated with placing an order through YKI. There will be a cancellation charge of 10% of the total order amount if this order is cancelled for any reason by customer or YKI.

Subject: RE: Trailer Decals

Rick,

For the specs you requested for the semi-trailer, your pricing is as follows...

72x72" logo area; 216"x72" graphics/lettering area; both sides; 72x72" rear graphics portion; applied vinyl graphics; installation included \$2376.00 each trailer

Lead time - 7-10 business days

Subject: Trailer Decals

Time is a wasting. I plan to deliver the application to the state tomorrow morning can we get some kind of number together?

Thanks Ricky

Subject: RE: Grant Quote

Rick,

The pricing you requested would be as follows...

12x24 magnetic sign; digital print vinyl; qty 24	\$39.00 each
6x20 magnetic sign; digital print vinyl; qty 24	\$16.00 each

As for the trucks – pricing would start about \$75.00 per truck for lettering/logo on the doors, and go up from there. We can talk about these.

Subject: Grant Quote
Importance: High

I need a quote for a purpose of a recycling grant for 24 magnetic signs (see attachment) and 24 magnetic signs in the size of 6 in. X 20 in.

Also we may be receiving 2 tractor trailers and I need a quote for decals on both sides of each. You can give me some ideas about what would look good.

Thanks Ricky

Subject: RE: Commercial Renewal

Hi Rick,

It's \$300 less than last year's total (\$6510) if we don't reshoot anything and use the same ad, so it would be just **\$6,210.00**. Your ad looks great already so this would be the easiest route.

If you want us to come out and reshoot anything, that's not a problem, especially if you'd like any drone shots or any other additional footage.

There was a cool drone video shot of a recycling center in Wisconsin that's on YouTube if you want to see the kind of shots we could get (<https://www.youtube.com/watch?v=kRJdw30tGns>).

What works best for you this time around with the ad?

Thanks!

Michael Crisp

APENDEX A

PART A - SECTIONS 2 Project Summary

Provide a brief explanation of the proposed activity:

We wish to improve our managing of recyclables from collecting to processing. During the times when recyclables markets are down one must process the best product so to maximize revenue. In our case this will require quicker and better sorting. We must gear ourselves to reach a level of being self-efficient. This will require additional equipment to streamline processing. There are a number of areas in the county where recycling opportunities still exist. We hope to increase the number of drop-off locations with additional roll-offs if awarded.

PART B SECTION 4 – Recycling Project Details

A) Project Description

1) Describe the proposed project - is it a new program or the expansion of an existing program?

We have made great progress over the last year. With the purchase of our sorting system and horizontal baler we have be able to improve the quality of our product with less man hours. We're setting our goals to reach out in other areas in and out of the county to collect recyclables. These items requested in this grant will give us the tools to reach our goals. We are researching the possibility of building a warehouse for storage of recyclables. The future of Shelby County Recycling Facility looks very promising for years to come.

2) List the service area by physical boundaries - include cities, counties, etc. that will be active participants.

Our first target is those that live within our county. This encompasses Shelbyville, Bagdad, Simpsonville, Waddy, Finchville, and Pleasantville with six small communities that we would like to motivate in utilizing our new facility in some fashion. We will continue to reach out beyond Shelby County's borders in hopes to partner with other entities to increase our recycling tonnage.

3) Why is the project needed?

It has become clear that recycling has moved to the forefront of many communities. We must move to the next level in operation but limited funds will restrict us from growing. It is critical to secure grant funds to keep moving the recycling initiative forward.

4) Is the proposed project otherwise unavailable for the service area?

Shelby County is the only recycling facility in the area that offers a full service to the community. Without the requested grant funds and additional equipment purchases it will be difficult to reach our set goals.

5) List materials to be collected and the expected increase in tons for the grant period.

All recyclables will be collected including glass. We wish we could demonstrate an increase in the tonnage over the last year but we are unable to do so. It's clear that contract garbage and recycling pickup has diverted a number of tons from our facility. If we are able to collect recyclables using new drop-off locations we are confident that our numbers will increase.

6) How will materials be collected, processed and marketed?

We offer a drop-off area at our new facility as well as locations in the city and county. All recyclables are sorted and processed at our facility to sale. Products are bid out monthly to secure a fair market price.

7) Describe how and why the requested equipment is needed to implement the proposed project.

With the added equipment daily management of recyclables will become more efficient and productivity will rise. Our goal is to sort and store products until the volume is adequate to make a bale. Additional equipment will enable us to utilize our horizontal baler and not be required to hand load the vertical balers. While utilizing Class D's and a staff of 2, we find it difficult to manage in-coming recyclables in an efficient way.

8) Provide a 12 month timeline for implementation of the proposed project.

Upon receiving documentation of any grant funds awarded we plan to place orders for all approved equipment as soon as possible. This early movement on purchasing should accelerate the time line of delivery and implementation. Our goal is to have all equipment purchased and operating in six to nine months.

9) Provide a list of potential buyers available for the materials to be collected. Include name and address of potential buyers.

- QRS: 2000 Industrial Blvd. Louisville, KY 40219.
- Rumpke: 1101 W Oak St, Louisville, KY 40210.
- Royal Paper: Kentucky
- Midwest Metals: 40 Windhurst Way Shelbyville, KY 40065.
- Pinnacle Recycling 3684 Hwy 150 Suite 8 Floyds Knobs, IN 47119
- WESTROCK 750 S 11th St, Louisville, KY 40210

PART B SECTION 5 – Recycling Project Grant Expenditures

Roll-off containers

1. Over the last year we have been able to place recycling roll offs containers in the county with hopes we can collect more recyclables and making it more convenient for our citizens. We have been pleasantly surprised with the outcome. The wrap design is an eye catcher that brings a sense of pride to the community. A minimum amount of trash has been dumped in our containers and the feedback from county citizens has been very positive. We accept the fact that Shelbyville's new contract hauler has affected our recycling goals. But we will continue to target recyclables throughout the county. The new roll offs will be designed to accept OCC on one end and all other recyclables on the other. Being able to switch out containers rather than remove and return is a must if one wished to become more viable. With the added containers it will enable us to place additional containers in the county.

Dump Trailer

2. At this time we have established a route to pick up recyclables from a number of businesses. We utilize a pick-up and one staff person on Tuesdays to collect all recyclables and transport them to the facility. At this time we are required to make numerous trips back to the facility to unload. Adding a dump trailer with a covered top would enable us to move much larger loads and the self-dumping system will make it more efficient. With the number of businesses requesting OCC boxes this will cut down the round trips and streamline our operation.

Mini Conveyor

3. In utilizing our gravity feed compartmental trailers we have found it is time consuming during unloading. We feel these trailers are still vital in many applications. We ask that a low profile conveyor be funded in this year grant. Working with a minimum number of staff members and no assurance our Class-D being available every day, this equipment would permit us to accomplish unloading and processing of product in a more efficient manner.

4.5Cu. Yd. Mini-cyclers

- 4 & 5. We were awarded funds to purchase 10 mini-cycler boxes during last year's grants cycle. The request for these OCC containers has exceeded the

number of containers on hand since the program was introduced. This is one of the best ways to build good public relations with businesses in your area and capture large quantities of OCC. Not only does it make it more convenient for the business but we are able to gather other recyclables like plastic and paper as well. We ask business owners to bag and tie other recyclables and place them in the container as well. In some cases we have a number of businesses sharing the same box with great success. Placing decals on the containers with our county recycling logo has proven to be a good way of advertisement. We are requesting funds for the purchase of 10-4.5 Cu. Yd. and 5 of the 9 Cu. Yd. containers.

Mesh Containers

6. Opting to utilize the horizontal baler for all our products has increased efficiency. At this time we have no spare cages that are placed in the sorting system. While baling, our hopes are to create an assembly line of sort. While one cage is being used during baling another can be loaded and staged so to keep a continuous flow during baling.

Painting

7. If we are fortunate enough to be awarded grant funds for the 6 mesh cages we ask the recycling committee to fund painting as well. The Electrostatic painting is more expensive but the longevity of the paint is well worth the extra expense.

Glass Pulverizer

8. As you are aware glass has become a difficult commodity to recycle. At this time we are required to pay Rumpke to take our glass at a rate of \$55.00 per ton delivered. Landfilling glass is not an option in Shelby County. If we are awarded funds to purchase a glass Pulverizer we plan to utilize the glass in our county road department applications and constructing a parking pad at our facility, as well as offering it to citizens free of charge. We're currently paying an estimated \$2,888.00 per year to recycling our glass. With this added equipment it would be beneficial to recycling in our county.

Electrical Installation

9. We ask that the Recycling Committee fund the wiring installation for the Glass Pulverizer. Having wiring designed for a mobile unit will allow us to stage the unit outside during operation. This will permit us to pulverize glass without an air filtering system.

Boxes

10. Managing plastics has become a major problem with the limited room inside our facility building. Sorting the plastic for market is the only option one has in generating revenue selling plastic. My option is to purchase (3) 40 yard open top boxes with covers to store the segregated plastic before baling. With this design we can sort, place in boxes until the required weight has been reached and then have our truck move the container inside for dumping then baling. With limited staff we have forego the vertical balers and utilize our horizontal baler. This will cut the manual labor and improve efficiency dramatically.

Tractor Box Trailer

11. We request the funding of two DOT registered box trailers for transporting recyclables to market. This will enable us to store and transport recyclable with our own truck. We have budgeted a purchase of a truck in the 2016-2017 budget. We don't plan to utilize the truck and trailers for long hauls but we have found that Louisville brokers are winning our recycling bids. If we are fortunate to receive these funds we can ask for a higher bid price.

Baler Conveyor

12. Shelby County Recycling Facility has made many upgrades over the last year. The addition of our horizontal baler has improved our efficiency greatly. Our plans are to begin baling ONP and Mixed Paper for the reason of moving more weight per truck load and a more efficient storage. To reach that goal we request a conveyor the help in baling the ONP.

Vehicle Wrap

13. We have budgeted the purchase of a new F-250 Ford Pickup Truck to replace the Clean Community vehicle. Our plans is to transfer the old Clean Community vehicle to the recycling facility. This will provide us with a second $\frac{3}{4}$ ton truck for transporting recycling trailers. The committee approved an amendment request to fund the wrap on our new pickup last year. We are asking the Recycling Committee to fund the wrap for this vehicle as well. It will mirror the same decals as the original pickup wrap. We have had numerous positive comments about our vehicle and recycling container wraps. We feel this is an exceptional method to promote recycling.

Forklift Attachment

14. With the high slope of our ramp we have found it difficult to load OCC in a safe and timely manner. With this attachment it will give us more control in staking the bales inside the trailers. Rather than trying to pull your forks out beneath the bale, that has been a time consuming practice we will be able to place the bale much more quickly and safer.

Office Containers

15. We have been able to motivate businesses to join our recycling program over the last year. Ten mini-cyclers have been places throughout Shelbyville. Business workers are bagging their recyclables and placing them in the mini-cycler for us to pick up while removing the OCC. We are getting numerous requests for office containers that look appealing to the public. We feel that containers in the businesses with our logo on them would be great way to promote recycling.

Painting

16. We were able to obtain four recycling trailers from Garrard County and one from Trimble County that are in need of maintenance that includes outer paint. These trailers will be used for spotting at events to capture the recyclables and advertising. We have serviced and conducted repairs to the lights and axles. We ask that funding for painting be considered.

17. If we are fortunate enough to be awarded funds for the purchase of two tractor trailers we feel that having lettering on each trailer would be a tremendous way to advertise. This is only one aspect of illustrating the success of the recycling facility in Shelby County.

Magnetic Signs

- 18 & 19. We have found that utilizing our trailers and roll-offs for different recyclables and events that using magnetic signs is much more efficient. If funded this will enable us to switch signs as needed instead of requiring us to spot a certain container.

Painting

20. We have placed used compactor boxes at two of our local business that generate large quantities of OCC. When full we are contacted by the business owner for pick up. This has made it more efficient for both the business owner and the recycling facility. We would like to request funds to paint the boxes which will make them more eye appealing to our citizens. If feasible we plan to add decals with budgeted funds in the future.

Advertisement

Our plans are to utilize the local newspaper located in Shelbyville. This is the only publication that is at our disposal. I would like continue utilizing the movie theaters airing commercials prior to the beginning of the movies. We received numerous positive comments on our movie marketing. Reaching out in Facebook was successful in promoting activities within the county as well. Our website has been upgraded since last year with a wealth of information available.

During last year's grant cycle we have been able to promote recycling through tours and presentations. All age groups have been targeted with success but there is still much to do. We're requesting funds so to continue to promote recycling in ways that are more innovating.

Program Advertising and Education

Advertising: Running local ads in the Sentinel Newspaper and hand out literature. We have not stopped researching better ways to promote recycling all across Shelby County.

Education: Purchase literature directed toward education of recycling.

Movie Theater Commercial: Continue the commercial in our local movie theater.

Educational Staff: Office receptionist to continue to conduct recycling promotional presentations and conduct facility tours. The cost for this staff person to conduct recycling promotions is estimated to be \$3,000.00 during this year's cycle. We are requesting 50% of the personnel cost.
